**Meeting closed at 19.05**

Appendix 1

Listed in the Recent Reports Table below are the enquiries, with their current status, that you have raised via Leicestershire County Council's Customer Service Centre or the Defect Report Form during May 2022. This will be empty if there were no enquiries logged during May 2022.

### Updated Highways reporting

#### **MVAS**

The LCC will be responsible to undertake contracting with services to move the said item from situation 1 to situation 2 every few weeks in line with the licence. This will be at no cost to the PC. Cllr Richard Shepherd will take the cost of no more than £1000 from LCC and still have enough for the scheme to supply the AVMS. Richard and I have requested that the team from the PC be informed of when the contractors will visit so they can learn from this experience. Engineers from LCC will visit the two sites and approve or not according to their requirements. Confirmation of the visits is pending and the outcomes. I have received a hard copy of the licence and have signed it and submitted it back to LCC without dating it as this is when the licence will begin.

#### **2. Ref: FS436445981 COMPLETED**

**Issue reported: Signs**

**Non-illuminated permanent sign, Damaged**

**Location: Walton Lane, Walton on the Wolds, Borough of Charnwood, Leicestershire, East Midlands, England, LE12 8JX, United Kingdom**

**Issue reported: Signs**

**Non-illuminated permanent sign, Damaged**

**Location: Loughborough Road, Walton on the Wolds, Borough of Charnwood, Leicestershire, East Midlands, England, LE12 8HT, United Kingdom**

**Your enquiry has been logged and will be prioritised based on the information provided.**

**We will update you as the issue progresses and on average this is likely to be within the next 6 days.**

**Works have now been ordered.**

## **Appendix 1**

Budget Impact in LCC

Welcome to Leicestershire Matters Council leader, Nick Rushton, introduces our autumn edition Budget at heart of scrutiny role Local government is entering a very difficult period – and that makes the role of our scrutiny committees even more important. Our budget update overleaf sets out the challenges ahead and these are likely to be made worse by the pressures impacting national Government. Over the next few months, our five cross-party scrutiny committees and Scrutiny Commission will take a finetooth comb to key decisions and play a key role in looking at proposals to make sure we agree a balanced budget. Over half of our councillors deal with scrutiny issues. They recognise that choices will be difficult but will seek to ensure that the focus is on protecting, as much as we can, front line services especially to vulnerable people in these difficult times. Scrutiny leads will also continue to look at other important issues such as a growing county and the impact of rising inflation on the cost of new schools and roads. We will also shortly be considering the council's first net zero strategy and action plan and we will be looking closely at the effect of the Government's adult social care reforms and management of pressures on special educational needs and disabilities services. If you wish to get involved and attend a meeting, ask a question or submit a petition go to [leicestershire.gov.uk/scrutiny](https://leicestershire.gov.uk/scrutiny) Scrutiny's role includes:

- Providing challenge – including holding our cabinet to account
- Receiving questions and petitions
- Monitoring the performance of services
- Helping develop our budget

The financial pressures impacting local government mean that we're in difficult territory and can't balance the books without impacting front line services. Latest figures show that our budget gap is set to grow from £8m to £28m next year – and could even top £140m by 2026. We want to be upfront with you about the challenges facing local government which are increasing costs at an unprecedented rate. On top of inflation, service demand is unrelenting and expected to go up by £18m every year. Capital costs – for building roads, schools and other one-off projects – could grow by £45m if infrastructure price rises don't reverse. Although there are no proposals at this stage, services including gritting, parks, bus subsidies, projects reducing smoking and supporting people to be healthier, Beaumanor Hall and planned big road schemes could be considered for possible changes or reduction. The pressures are impacting all councils, not just us. During austerity, identifying and acting on problems early served us well, and we are keen to hear your views. As the lowest funded county council, Leicestershire will always be sensitive to financial shocks. But the challenge currently being faced will put even the best funded local authorities under pressure. We knew earlier in the year pressure was building but a perfect storm of global events such as Covid, Russia's war in Ukraine and the cost of living crisis, plus spiralling service demand, means we now have to look across the board at all services. And this will include things that affect our everyday lives such as road repairs, gritting, big road schemes and waste sites, as well as support for adults and children. That's why we want to hear your views. Log on and sign up to tell us what you think." Councillor Lee Breckon, cabinet member for finance 'Frightening finances' - tell us what you think Budget consultation To find out more and sign up to take part in our budget consultation, scan the QR code or visit: [leicestershire.gov.uk/budget](http://leicestershire.gov.uk/budget)

## Appendix 2

The overall situation with the Village Hall is largely unchanged. Bookings remain very low as people still seem reluctant to return to pre-covid levels of activity. Walton WI is back up to a normal level of booking and the "combat" group is returning for the winter months. Casual bookings are few and far between. Financially we are running at an on-going loss as fixed costs are going up relentlessly. The current very cheap business contract for electricity is running out on January 13<sup>th</sup> exacerbating the problem. I have begun to look at renewal options but none are very good. I anticipate a 4 – 5 fold increase in consumption charges and possibly a greater increase for standing charges. Heating is the major factor and at present if all the heaters are on in the main hall the cost to hirers is roughly £3 per hour – there will clearly have to be a significant increase! The availability of government support may help but it will not have any effect until renewal and at present is only scheduled to run until March.

There have been no major problems structurally (fingers crossed) but some external redecoration is going to be needed soon. Internally the decoration is in fairly good order. Weed and bramble growth at the rear of the hall will need to be cleared over the winter.

Finances are as follows – Deposit Account £4795.04 (as per 01.01.22)  
Current Account £6635.31 including funds remaining  
from Parish Council Grants for repairs and maintenance (approximately £500).
